THE MIDDLE COURSE.

It is unfortunate that the modern municipality cannot simultaneously lower its taxes and increase its! public improvements. To wish for as much is no less futile than the 38-Confedersearch for the fountain of eternal youth. It is criminal to take from a bank that which you have not, previously deposited therein.

Many communities try to evade the issue but all eventually must choose low taxes or public improvements, or compromise. It is notable that those towns and cities which boast of low tax rates cannot boast of their public improvements because they have none of the latter. By the token there are many municipalities which 23 24.25 talk loudly of monumental improvements but speak in whispers of their staggering taxes. Such extremities are formidable to new industry, business and citizens.

It, therefore, becomes evident that the communities which steer a middle course are rich in good common sense. With some forebearance there is no municipality which cannot eventually supply all its improvement requirements and at the same time enjoy favorable

taxation. Postponing too long the launching of improvement programs inevitably brings the community face to face with the necessity of doing everything at once out the entire South during the ment official and humblest citiinstead of extending the necessary past two years. improvements over a long period "The South needs to do more into the circle and take a hand. as they individually become im- dairying because we need to con- It is Child Health Day, and its ing to W. or Mother's Day · a real remembrance

IT must be something good, and beautiful, and useful, to be worthy of Mother. And to be in keeping with the spirit of Mother's Day, it should be something lasting too===a real remembrance. Sterling silver fulfills all these requirements.

Lovely serving pieces in famous sterling patterns cost but a trifle. Within a price range of \$2.00 to \$10.00, for instance, there are gifts like cold meat forks, jelly servers, salted nut spoons, steak sets. And of course, there are dozens of more elaborate suggestions. Let us show them to you!

Then, when Mother opens one of our charming Mother's Day gift boxes, and the soft gleam of the imperishable beauty within is reflected in the brightness of her smile, you'll realize that this Mother's Day you chose more wisely than ever before.

Dependability, Satisfaction and Honest Value

Never before in our history have we delivered as many new Chevrolets as during the first three months of this year. Naturally a large part of this increased business required the trade-in of the new Chevrolet owner's previous car. These cars have been reconditioned with the result that many of them can hardly be distinguished from new cars.

Furthermore, these cars carry the official red tag "with an OK that counts" which shows the true condition under which the car is offered for sale.

Come in and inspect these used cars, and when you buy from us you may do so, confident that we want your goodwill, the same as we now enjoy with Chevrolet owners in this community.
